1 Purpose

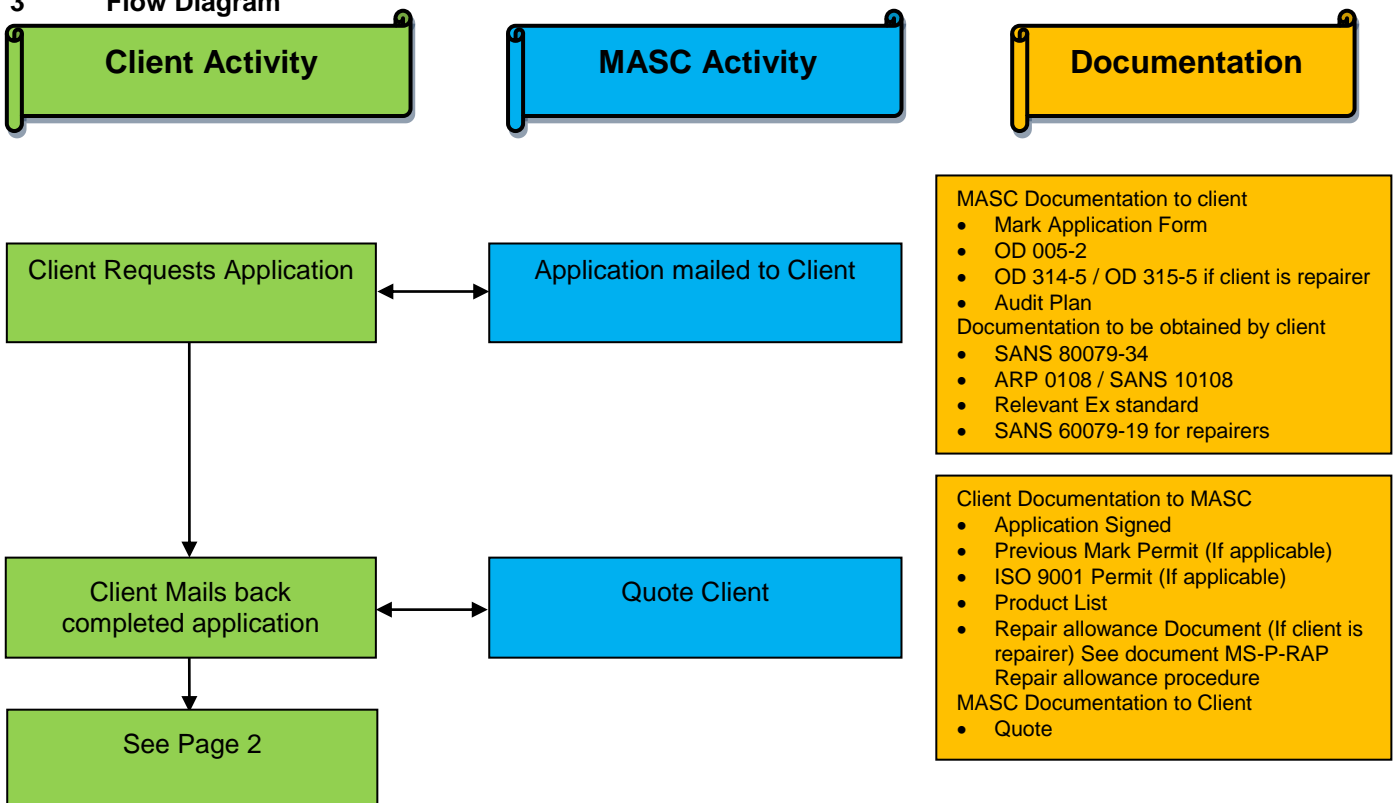

This flow diagram shall attempt to lay out the process of obtaining a Mark Permit and what documentation will be required from the potential mark client and MASC.

2 Non-discriminatory Statement

MASC's services are available to all applicants whose activities fall within testing, certification and training of explosion protected equipment. There are no undue financial conditions / restraints on the client and access is not conditional upon the size of the applicant or membership of any association or group, nor is certification conditional upon the number of certificates already issued. If certification / project is declined by MASC, reasons will be clarified in the system/ contract review.

MASC does not and shall not discriminate on the basis of race, colour, religion, gender, gender expression, age, national origin, disability, marital status or sexual orientation in any of its activities. Any breach in this policy can be brought to the attention of top management for review and investigation.
