

# MASC TRAINING

## Introduction to MASC

MASC was established in October 2008 and in this time obtained accreditation / approval from the Department of Mineral Resources, department of Labor, SANAS as well as International IECEx Accreditation.

MASC is the largest Ex certification and Hazardous locations services company in Southern Africa and is the only International (IECEX) accredited Certification Body (ExCB) and test Laboratory (ExTL) in Southern Africa.

The company covers the widest utilized disciplines in the Ex field, covering the widest scope of accreditation. The personnel at MASC commits to professional conduct and practice, effective and efficient test and assessment results, as well as a high level of quality in all activities.

## Our Mission

It is the mission of MASC to partner with our clients to provide all encompassing solutions that meets legal, technical, and commercial requirements.

In support of this mission we:

- Respect the authority bestowed upon MASC to issue certificates and reports;
- Provide effective and efficient testing facilities;
- Provide technically up to date and superior service;
- Provide cost effective and timeous service;
- Promote knowledge transfer to industry / clients,
- Participate in the formal development and maintenance of hazardous locations / standards and regulations.
- Develop, maintain and present up to date practical training according to latest best practices and NQF objectives.
